Distances Between Ritual Places

The First Sanctuary &

والعالط كالعالط كالعالط كالعالط كالعالط

pointed for Mankind ...

In the Name of Allah, the Most Merciful, the Most Gracious.

All praise to Almighty Allah, Who guided me to bring this project to completion.

In addition to extensive observations of pilgrims during seasons of Hajj, a pilot study was conducted. It shows that more than two-thirds of those who performed Hajj rituals for the first time could not perform them correctly. The representative sample showed that among the main reasons for making errors are the lack of correct knowledge, lack of well-designed books, and unfamiliarity with places and ritual terms.

Thus, the once-in-a-lifetime worship is highly vulnerable. That is, the majority of pilgrims cannot get it correctly the first time. This vital reason was adequate to motivate me to develop a book that is designed mainly to help them perform this important obligation in a step-by-step approach. That is why it is titled "Hajj & 'Umrah from A to Z."

As an instructional designer, I had to study the problem carefully and make a needs assessment in order to come up with a form that may better help Muslims get their rituals correctly. I had to go through an enormous number of books about Hajj and study them carefully. The result is an illustrated manual-like book that includes charts, diagrams and photographs that will systematically guide any Muslim to achieve the Hajj without, God willing, making any error.

Another purpose of this book is to alleviate the tension, anxiety, and fear of some pilgrims who have preconceived ideas about the difficulties that will face them in performing Hajj. This book is intended to make all steps easy and smooth, and to handle most of the errors before they occur, thus alleviating this anxiety by warning the pilgrims of what may happen long before it does. All a pilgrim needs is to read carefully and follow the steps very accurately and, by the grace of Allah, he/she will perform a smooth, correct Hajj.

The methodology I followed in this book is to trace the Sunnah of Prophet Muhammad (peace be upon him) as illustrated by the famous Hadith collected by Imam Muslim and others of "The Farewell Hajj of the Prophet" (pbuh). By doing that I have kept this book far from the differences between the various schools of thought known as Madhahib.

I would also like to remind the reader that the book is designed to illustrate the <u>H</u>ajj Tamattu', as it includes all the steps required in the other two types of <u>H</u>ajj - Qiran and Ifrad. I have also made a chart that illustrates the similarities and differences between the three types of <u>H</u>ajj and have titled it "quick reference."

The intended readers of this book include all English-speaking Muslims who are ready to perform \underline{H} ajj regardless of age, education or gender. Thus the book is designed like a manual to help brothers and sisters make the prescribed rituals correctly.

Finally, I would like to thank all those who supported me in writing, editing, and revising this book, particularly those who kindly and patiently reviewed the Islamic contents many times and those who provided me with pictures.

May Allah guide us all to the right path.

The Author Mamdouh N. Mohamed 1996

This booklet is designed primarily as a manual, a concept that may not be totally new to most people in our Islamic world. Briefly, it presents the material or the contents in a very consequential way to guarantee the fewest possible faults and errors.

Fortunately, when a person knows how to use this book/manual correctly and effectively, the outcome will be absolutely positive, if Allah is willing.

FIRST,

look carefully at the cover design to get acquainted with the steps and their sequences. Read through the book to get an overall, comprehensive idea of its contents. Whenever you find some new terms that you are not familiar with, consult the glossary at the end of the book.

SECOND,

go to the quick-reference on the back cover where you will be able to see the similarities and differences among the three types of <u>H</u>ajj. Each type has a different color. Read this page carefully before you decide which one you will select.

THIRD,

once you have made your selection, try to mark which steps are not applicable in Hajj Tamattu', the main focus of this book. This will help you skip the steps when the situation arises.

FOURTH,

follow each step accurately. Plan ahead by reading a couple of steps ahead of time. This is significant because when you start performing the rituals you will not have time to read thoroughly.

FIFTH,

always pay attention to the sequence of steps and the comments relating to them.

SIXTH,

the title "Remember" on each page is to remind you of the important things that many people often forget while they are performing the rituals. So pay close attention to them and try to abide by them, as they are very important.

SEVENTH,

the "Next Step" subtitle is of vital importance, as it prepares you ahead of time for what you need before you actually start the following step.

EIGHTH,

the title "WARNING" is of vital significance, as it warns the pilgrims against:

- (a) some of the more common errors.
- (b) acts that nullify the Hajj.
- (c) acts that require a sacrifice or compensation.

Be assured that the book is very easy to follow and that it will guide you to perform your <u>H</u>ajj correctly if you abide by it.

REMEMBER:

Whenever in doubt, ask scholars before you act. This will save you A LOT of difficulties.

Practical Tips

والعالط لطالط العالط العالط العالط

MONEY:

Do not worry about exchanging money. You can do that very easily anywhere in Saudi Arabia.

SMALL GROUPS:

Close observation shows that people who move in large groups are subject to having either one or some of them lost, and/or missing some rituals or performing them late that may require them to compensate for that either by slaughtering an animal or by fasting or something else.

GOOD COMPANY:

Be sure to choose good company during your whole journey, because this helps you avoid arguments and helps you perform your Hajj correctly.

TO AVOID GETTING LOST:

It is recommended to arrange in advance with your group exactly where and when to meet and what to do in cases of being late, and what to do if someone is lost. To help you, follow these procedures:

- Arrange to meet at a very clear place where there is a clear, colored sign or landmark.
- Allow a specific range of time for those who come late for any reason, provided that this time does not affect the ritual to follow.
- c. Be sure that everybody in your group is clearly notified.

Practical Tips

FOOD:

Do not carry food from your homeland; almost everything is available there. Also, remember that your food may be taken from you at the airports.

To develop good eating habits, observe the following

- Always avoid eating big meals, (a) because this is not healthy, and (b) this is not helpful for performing rituals.
- The best foods to eat are fruits, and the best drinks are water and juice. They are everywhere and inexpensive.
- Always put the remains of food in a plastic bag, and be sure to put it in a trash container.

MEDICATION:

Carry only indispensable medication that is essential for your health. Other common medicines can be obtained from any drugstore. You can get free first aid care in all ritual areas.

PROTECTION:

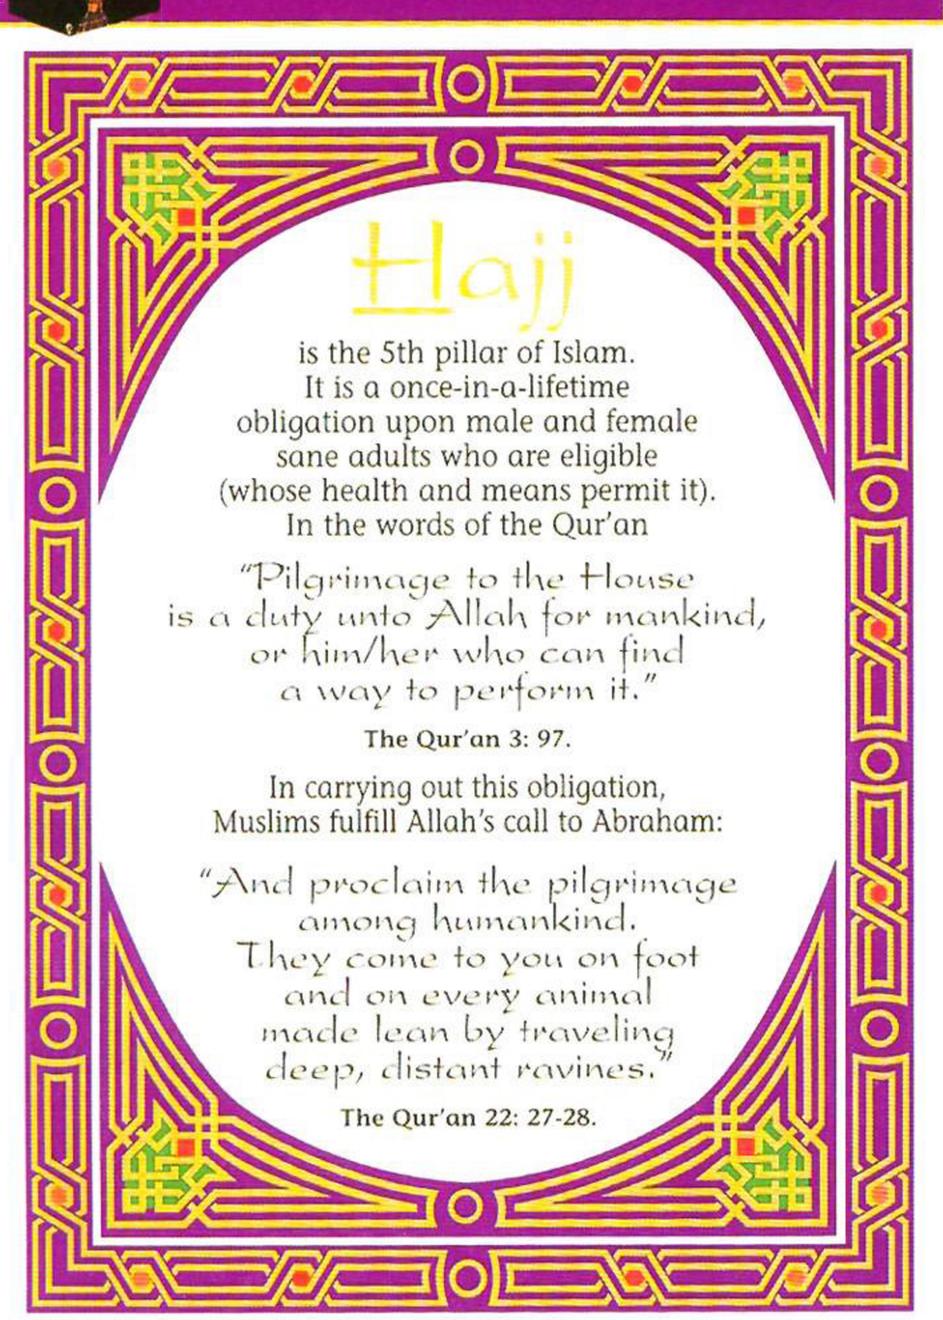

Beware of the high temperatures in all ritual areas. Avoid being exposed to the sun for long periods of time. Always use umbrellas and drink a lot of liquids.

SERVICES FOR HANDICAPPED:

For the weak, the sick, the handicapped, and elderly people, there are special services provided. Wheel chairs and on-shoulder-litters can be rented for those who need them. Ask the authorities for these services inside Al-Masjid Al-Haraam. Sometimes you may find them free, but usually they are not very expensive. Take advantage of these services if you need them.

Consciousness of Allah The best thing to please Allah is to watch constantly for Him and be conscious and fearful of Him in all your actions and speech.

Correct 'Aqidah

Every Muslim should understand that if his/her belief, or 'Aqidah is not sound, the Hajj or any other 'Ibadah (worship) is not accepted. So always try to correct your belief by asking scholars who will provide you with proofs from the Qur'an and Sunnah.

Pure Intention

Almighty Allah does not accept what is not directed to Him alone. Therefore, you should always be sincere and have pure intention for <u>Hajj</u>.

Correctness of Rituals

Any ritual is not accepted unless it is made correctly, exactly as Prophet Muhammad (pbuh) did it. "Whoever adds something new to our religion, it is rejected."

Patience

The difficulty of rituals requires every pilgrim to be patient and forgiving of others.

Repentance

Do your best to make <u>Hajj</u> a repentance for all your sins. This repentance requires you not to commit any of these sins again.

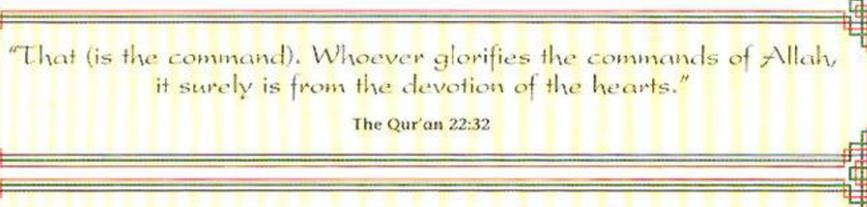

Mercy

Do your best to help Muslims, avoid pushing or hurting them in any of the <u>Hajj</u> rituals, especially in Tawaf, Sa'ee, and pebble throwing, which are crowded.

Cleanliness

Cleanliness is a true sign of faith. Therefore, you should always keep your heart, body, food, drink, and everything clean. Also ask others to keep ritual and worship places as clean as possible.

Supplication (Du'a') is truly the essence of sincere worship. It connects Muslims with their Creator and it is a practical expression of their persisting need for Almighty Allah.

Almighty Allah asks people to be persistent in their du'a' and never to lose hope in beseeching Him and Him alone. Who else except Allah would respond to our supplication and du'a'? He Himself said: "And if My servants ask you about me-behold-I am near; I respond to the call of them who call, whenever they call upon Me." So let them also listen to Me and believe in Me, in order that they may be guided to the right way." (2: 186).

In another verse Allah urges people to make du'a': "Your Lord said: If you beseach Me I will respond to you." (40: 60)

However, for du'a' to be accepted and responded to, a Muslim must be truthful, with true intention, clean and pure heart, humble, legitimate in earning money, and should avoid over-indulgence in worldly matters.

The best type of du'a' is one that is mentioned in the Qur'an and the Sunnah of Prophet Muhammad (peace be upon him).

Here are some supplications, taken from the Holy Qur'an and the Prophet's Sunnah (pbuh). These supplications can be used whenever du'a' is permissible.

Supplications

"O Our Lord! Condemn us not if we forget or fall into error.
Our Lord! Lay not on us a burden like that which You did
lay on those before us. Our Lord! Lay not on us a burden greater
than what we have strength to bear. Pardon our sins,
grant us forgiveness, and grant us Your mercy.
You are our Protector, help us against the disbelievers."

The Qur'an (2: 286)

"O Allah, You are my Lord. There is no deity but You.
You have created me and J am Your servant. J try my best to hold to
Your covenant and promises as much as J can.
J seek refuge in You from the evil of what J have done.
J acknowledge Your favor to me, and acknowledge my sin.
Forgive me, for none but You forgives sins."

(Collected by Bukhari)

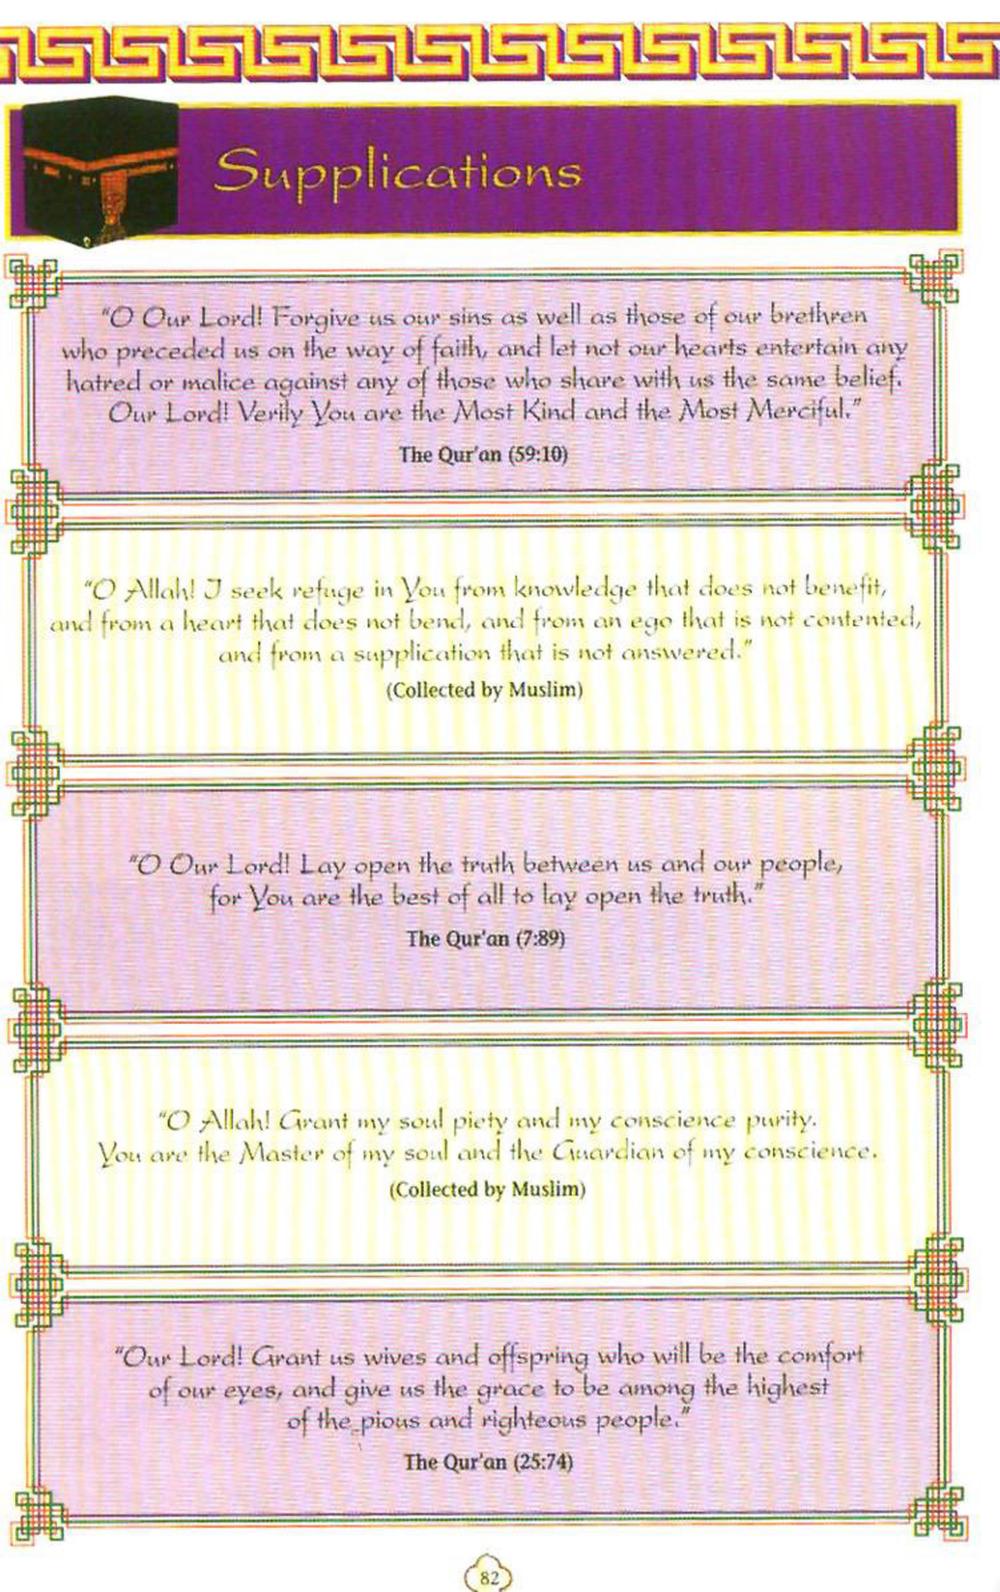

Our Lord! Let not our hearts deviate now after You have guided us, but grant us mercy from Your own Presence, for You are the Grantor of bounties without measure."

The Qur'an (3: 8)

"O Allah! I seek refuge in You from worry and sorrow.

I seek refuge in You from incapacity and sloth,
from stinginess and convardice, and I seek refuge in You
from the burden of debt and from being transgressed by men."
